

# How to log in to iConnect Session - Laptops:

Using the link emailed by the teacher – Click on the Session Name Link

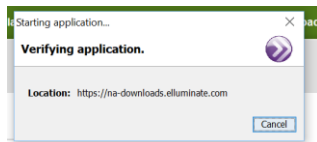

Click on JOIN ROOM

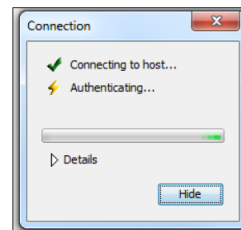

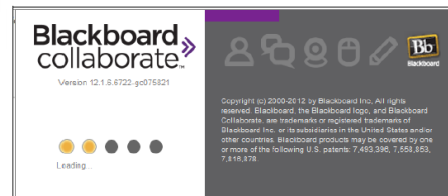

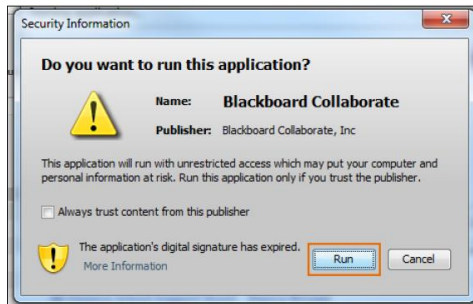

If required, download & install Blackboard Collaborate Launcher

This will download the meeting link

The application will download

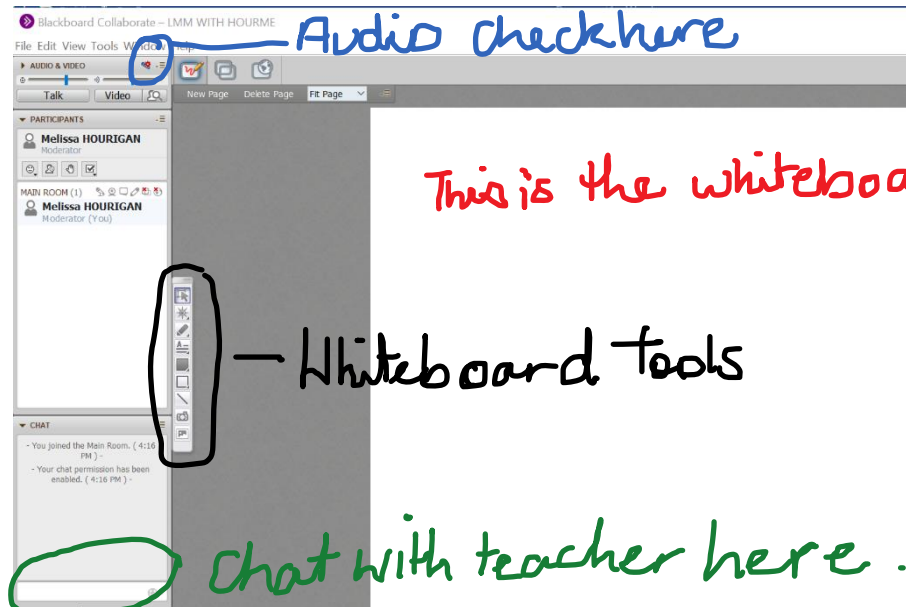

Click RUN to open the Blackboard program. It will load

If asked AGREE to the terms and conditions

If asked about the internet connection, select WIRELESS

Then Blackboard will open. Your screen will look like:

Audio check here

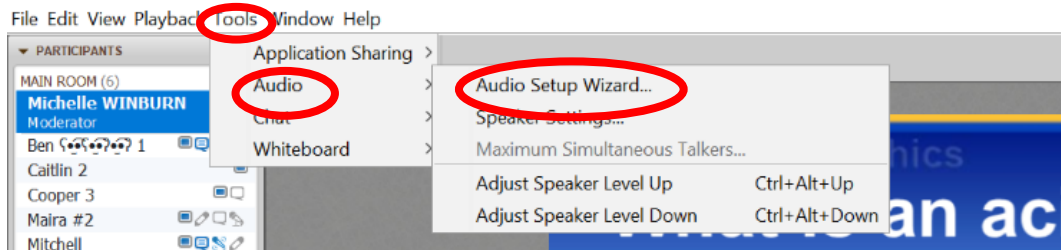

This is the whiteboard.

Whiteboard tools

chat with teacher here.

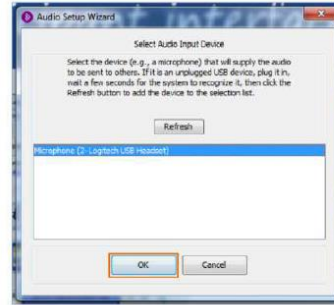

Before the session starts, **check your audio using the Audio Setup Wizard**

Tools → Audio → Audio Setup Wizard

Follow the on screen instructions.

1. When in your iConnect session, select  !

## During the session

This is the tool bar for the Whiteboard. If you are asked to write/type/draw on the screen you use this toolbar.

Pen tool for writing, you can use the mouse or stylus if your device is touch screen. Move cursor to screen where you wish to write, then write.

Text tool, use this to type comments on the whiteboard. Use your mouse to click on the screen where you want to type.

If you need to answer a question or ask a question you can type in the CHAT WINDOW.

You can also “put your hand up” – near your name on the left of screen.
