

**MURRUMBA
STATE SECONDARY
COLLEGE**

Alicia's story:

I am from the North of Réunion; my school is in Saint-Denis. I like to visit my friends, go to the beach and go to the city as well as cooking, tourism, sociology and film and media class.

I chose Queensland because of the great weather, beautiful beaches, snorkeling destinations and the Great Barrier Reef.

I have learnt to make the most of my experience in Australia I had to come out of my comfort zone, stop complaining and open myself up socially.

I have enjoyed participating in a Design class, making my first project with wood. I have made many new friends and they are all amazing!

I have enjoyed my time in Australia especially the weekend I spent on a farm in Esk with my homestay family; exploring Moreton Island. The first outing I had with my new friends was to the Pine Rivers Show this is memorable and of course I loved my surf lessons at Sunshine Coast!

While I have been in Australia, I have missed my sister and am looking forward to spending time with her when I return to Reunion.

During my stay in Brisbane I have lived with a Homestay family who has cared for me incredibly well, they have included me as part of the family.

I have always wanted to be a business woman when I finish school, I would still like to study in a Business School and go around the world!

Murrumba State Secondary College's reputation of striving for personal excellence in academic endeavours appealed to me after viewing the video and the school seemed like a great place to study. I liked the location also as it is still close to Brisbane city.

If you are choosing to study overseas, I would recommend Murrumba State Secondary College because you will live the best adventure of your youth!
